S-line Home Charging Pole

For home use

Product Information

The S-Line Home 80 pole is a robust and weather-resistant pole that, together with a mounting plate, provides a complete mounting solution for EV chargers. Made of aluminium and stainless steel with a durable, scratch-resistant powder coating (black finish), it ensures a long service life.

A suitable choice for home installations where one or two charging boxes are mounted on the pole.
A distribution terminal block is not included with the pole. The pole can be combined with a wide range of mounting plates designed for specific charging boxes. See the complete list below.

Mounting plates without hook, 1-way only:
69978: Zaptec Go/Go
69979: Easee

S-line Base mounting plates with hook:

69985: Zaptec Go 1-way
69986: Zaptec Go 2-way

69987: Easee 1-way
69988: Easee 2-way

S-line Base mounting plates with hook:
69989: Tesla 1-way

69977: Nexblue 1-way
69990: Nexblue 2-way
